1. Projects will be scored in each area based on a pass/fail scoring. The scoring is as follows for each category:

- 0 - project does not adequately meet criteria
- 0.5 - project marginally meets criteria
- 1 - project partially meets criteria
- 1.5 - project more than partially meets criteria
- 2 - project adequately meets criteria

2. For the leveraging category, the percent leveraging identified will be converted into a numeric score. For example if a project shows 80% leveraging, they will receive a leveraging score of .8. If a project shows 150% leveraging, they will receive a leveraging score of 1.5, etc.

3. In order to calculate the project total, the criteria score will be multiplied by the criteria weight.
